## About the Long Island Live Steamers

LONG ISLAND LIVE STEAMERS, INC. was founded in 1966 to preserve the fine art of precision steam model making. While our outdoor tracks, and the trains that run on them, may represent our most visible activity, our members also build scale model steam boilers, engines, boats, and tractors, as well as fully functional railroad models. Very few of our members are professional machinists, most are hobbyists, some have small basement shops, while others have no shops or projects. The uniting interest lies in steam power, railroads, and having fun.

The club site is located in Southaven (Suffolk) County Park, which is near William Floyd Parkway and Sunrise Highway. The county has made available about [8.5 acres of land](#) on which our railroad operates. We have a recently expanded elevated railroad for 3/4" and 1" scale trains with more than 1250' track and a 4600' Groundline right of way for 1 1/2" scale trains. In fulfillment of the public trust use of park land, Long Island Live Steamers hosts visitor rides on our [Public Run Days](#) scheduled for the second and last Sundays of each month from the middle of May through the end of October.

The engines and rolling stock you will enjoy on any given Public Run Day can be a mixture of member owned and club owned equipment. But, on Meet Days, members of other Railroading Clubs throughout the country bring their consists along to run on our tracks. So, while a single visit to Long Island Live Steamers can be a huge amount of outdoor and nostalgic fun, regular visits are practically mandatory for complete enjoyment of what LILS has to offer. Better yet, a [membership](#) gives you a great excuse and special access to come and be part of railroad history and remembrance on a regular basis.

We believe that we have one of the finest tracks in the country (we are only a little bit prejudiced!), and if you would like to join us as a member click on the Member Crossing Signal at the top Right of this page, or better yet, come down to the park on a [Run Day](#) or any other [scheduled event](#) and submit your [application](#) in person. We welcome your participation in our club.

**Our Public Run days are usually scheduled for the second and last Sundays of the month from May to October.**
